Time to stop publishing material from AP

The disclosure by The Associated Press, which resulted in the compromise of an important source in Yemen, is not a matter of freedom of the press.

Instead, it is a revelation that put our national security in greater danger.

That the AP is incompetent has been reported previously in this journal (Feb. 14, 2012, Page 4). Now we discover the AP is also unpatriotic. The time has come to stop publishing anything from this irresponsible agency.
