County should change its name to Nomal

We need to replace our county's name to reflect the voting patterns of many local citizens. They are opposed to everything our community needs. Despite what they say.

- Of course we need to build more schools for our increasing population. Moving vans come here loaded and leave empty.

- Of course we need a new justice center. The current facility provides neither safety nor security for both the staff and prisoners.

- Of course we need a beltway. Otherwise our traffic congestion will turn us into Austin south.

- Of course we need to incorporate Canyon Lake. The alternative is being even more awash in billboards from greedy Houston companies and the possibility of being taken over by another city.

- Of course everyone of us should pay our fair share of taxes. As it is now, we oldsters have transferred our property tax obligations to our kids.

Because so many are negative about facing reality, the county name should reflect that perspective. Our county's name should be changed to Nomal.
