

OPINION

Land of the free and the home of the offended?

I agree the Washington Redskins should be required to change their nickname. Why should an NFL team be allowed to make fun of our Guadalupe River tubers who fail to use sun lotion?

While we are at it, let's fix the rest. Will Cuban-Americans object to the Cleveland Browns? Will Auduboners complain about the Seattle Seahawks? Will isolationists rally against the New England Patriots?

Where does it all end?
